Introduction to Agriculture

Course Content:

The course will cover topics such as:

- Agricultural safety
- Environmental resource conservation and management
- Plant growth and reproduction
- Fertilization, irrigation and pest control
- Animal systems and livestock management
- Agricultural machinery and facility maintenance and operations
- Agribusiness marketing and finance concepts and mathematics and physical science skills.

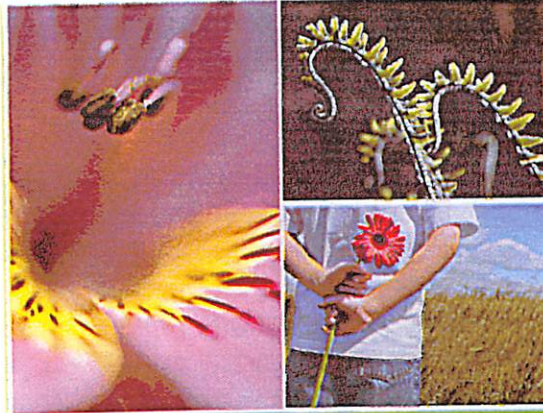

Pipeline of Talent:

Partnerships with local businesses, Career and Technical Education will pave the way for the Agritechnology Industry Certification by AEST. This course curriculum will build off of knowledge gained in elementary agriculture classes and prepare students for programs in both Flagler high schools, college programs and future job opportunities.

Project Based Learning

Students will experience rich, hands on, differentiated instruction to develop a self-sustaining garden of transplantable greenery and perishable items.

Utilizing irrigation and hydroponic systems, students will have the opportunity to get out of the classroom and will build and tend gardens that will then be able to landscape residences and/or businesses as well as

R.O.A.M.

As part of Indian Trails Middle School Classroom to Careers programs, Agriculture is one of the many options scholars have to enrich their outdoor passions.
