

Parental Permission Form

Sexual Health and Information Seminar

The PE/Health classes will be participating in a seminar taught by Flagler County Health Department health educators the days of April 13th and 27th, 2018. Teen health and wise decision making are part of the Florida State Standards for middle grades PE and health. Information shared will be from the medical perspective, as well as the health of the individual. This seminar will include information on sexually transmitted diseases (STD's) which is a concern for some of our teens. Some of the photographs are actual photos of symptoms a teen could look for which might indicate infection. If you do NOT want your child to participate, please sign this and send it back to russellmi@flaglerschools.com or student may drop it off directly at the front desk.

YOU ONLY NEED TO RETURN THIS FORM IF YOU DO NOT GIVE YOUR CHILD PERMISSION TO PARTICIPATE. Students who do not participate will be given an alternate assignment for the day.

If you would like to preview the material/curriculum or have any questions, please e-mail russellmi@flaglerschools.com.

Thank you for your cooperation.

ITMS PE/Health Educators

Child's Name: _____ School: ITMS

I have read and understand this form.

My child does not have my permission to participate in the seminar.

Parent's Signature: _____

Telephone Number: _____ Date: _____
